

VARIOUS.

One Up—Bill—is a good accountant, but like many others, he has been in a bad way. The debtor was not slow in discovering the mistake and demanded an explanation. Bill examined the account and saw that it was "down," but did not like to admit it, so putting on a bold face he said: "That's all right." "How not?" was the inquiry. "It's all owing to the inflation of the currency," said Bill; "the multiplication table, like everything else, has gone up."

Rough, Wily, yet True—General Kelly, recently captured along with General Crook by a sudden dash of the Confederates into Cumberland, Maryland, was engaged to be married within a few days, to a lady of that place. The next evening after the capture, she stood at a public house, smoking, when he came to her.

whereupon a soldier in the audience exclaimed, loud enough to be heard by those around him: "That's a d—d lie; he hadn't even time to put his foot on."

Contentment—Contentment converts every thing near it to the highest perfection it is capable of. It irradiates every metal, and enriches lead with the properties of gold; it heightens smoke into flame, flame into light, and light into glory; a single ray of its dissipates pain and melancholy from the person on whom it falls. In short, its presence naturally changes every place into a kind of heaven.

Perhaps there is no such striking example of the power of a large town from natural causes as we find in the case of the once busy and prosperous village of Nantucket, Massachusetts, twenty-five years ago the principal seat of the whaling business of this country. At present, grass grows in the streets, and the latest indication of decline is found in the fact that of the two newspapers published on the island, one has been bought up by the other, and henceforth *The Mirror* will be the only sheet printed there. *Sig trans.*

A child asked, "who will bury the last man that dies?" Perhaps, sweet child, a descendant of the little robin red-breast that buried the children in the wood.

Brigham Young is said to be the father of over 100 children.

They are a sure preventive of Lung Fever, and a certain remedy for all Diseases incident to the Horse, such as Coughs, Yellow Water, Distemper, Founder, &c., &c., &c., &c.

In poor, low-spirited animals, it has the most beneficial effect, and is constantly worn out by its use.

These Powders improve the wind, strengthen the Appetite, and give to the Horse a fine, smooth and glossy skin; thus improving the appearance, vigor and spirit of this noble animal.

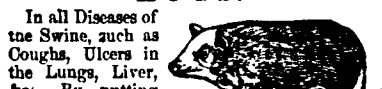

FOR MILCH COWS.

The property this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a cow.

It is a certain and permanent remedy, and it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

HOGS.

In all Diseases of the Swine, such as Coughs, Liver, &c., &c., &c., &c., &c., &c., &c., &c.

Our only child, a young pig of age, was attacked by pimples on his forehead. They rapidly increased in number, and he became very ill, and we were told that he would not live.

Having tried every thing else, we had recourse to your Powders, and he was cured in a few days. We are now able to say that your Powders are a sure preventive of all Diseases incident to the Swine, and that they will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet.
